

## 5.3.21

WALT: To be able to round any number up to 4 digits to the nearest 10, 100 and 1000

Round the following numbers to the nearest 10km.

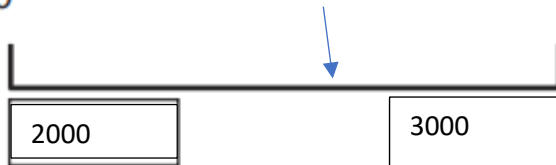

Places	Distance	to the nearest 10 km
Sheffield to London	257 km	<input type="text" value="260 km"/>
Liverpool to Birmingham	141 km	<input type="text" value="140 km"/>
Manchester to Bristol	113 km	<input type="text" value="110 km"/>
Norwich to Plymouth	506 km	<input type="text" value="500 km"/>

Round the following numbers to the nearest 100.

341	→	<input type="text" value="300"/>	83	→	<input type="text" value="100"/>	3009	→	<input type="text" value="3000"/>
-----	---	----------------------------------	----	---	----------------------------------	------	---	-----------------------------------

Write the thousands either side of the given number and mark it approximately on the number line. Then circle the 1000 to which the given number is closer. (Remember, 5 and 500 go up.)

a) 2670

b) 4122

c) 3091
