

Whiteshill Primary School requests the consent of parents on an annual basis to use images and videos of their child for a variety of different purposes. Without your consent, the school will not use images and videos of your child. Similarly, if there are only certain conditions under which you would like images and videos of your child to be used, the school will abide by the conditions you outline in this form.

How do the school use images and videos of your child?

Whiteshill Primary School uses images and videos of pupils as part of school displays to celebrate school life and pupils' achievements; to promote the school on the school Facebook page and on the school's website; and for other publicity and communication purposes such as the school prospectus or newsletter.

Where the school uses images of individual pupils on the school website, Facebook and school publications of any kind, the name of the pupil **will not** be disclosed. Where an individual pupil is named, a photograph of the pupil **will not** be used to accompany the text. If, for example, a pupil has won an award and their parent would like their name to be published alongside their image, **separate consent** will be obtained prior to this.

Who else uses images and videos of your child?

Occasionally the school is visited by local media and press, who take images of school events, such as fundraising or sporting achievements. Pupils will appear in these images, and these may be published in local newspapers, or on approved websites. **Please note these images may be accompanied by the child's name so if you are giving permission for your child to appear in the local media and press you are also giving consent for their name to appear alongside their image.**

Whiteshill Primary School is part of the Diocese of Gloucester Academy Trust (DGAT) who may occasionally wish to use images of children in school on their website or as part of promotional materials.

What are the conditions of use?

- The school will not use the personal details or full names of any pupil in an image or video, on our website, in our school prospectuses or any other school printed publications.
- The school will not include personal emails or postal addresses, telephone numbers on images or videos on our website, in our school prospectuses or any other printed publications.
- Images and videos may include work created by pupils.
- Images or videos may be individual, group, class or whole school.

Please note, at school events such as sports day, school plays etc. parents and relatives of other children may take photographs which have your children in them. We will always make it clear to parents that these should not be shared on social media or online in any way. **However, if there is a safeguarding reason why your child cannot be photographed in this way by other parents e.g. they are a child in care or a previously looked after child (adopted from care) then please let the school office know immediately by emailing head@whiteshill.gloucs.sch.uk – we will assume this is not the case unless you let us know.**
