

We are Scientists...

Living Things and their Habitats

We are curious, we are unique, we are together, we are Whiteshill!

### Habitats

habitat – the home that suits an animal or plant.

Microhabitat – a very small habitat  
e.g. woodlice under stones

plants – cactus desert/oak tree forest

animals – polar bear ice/worm  
soil/shark ocean

### Hibernation

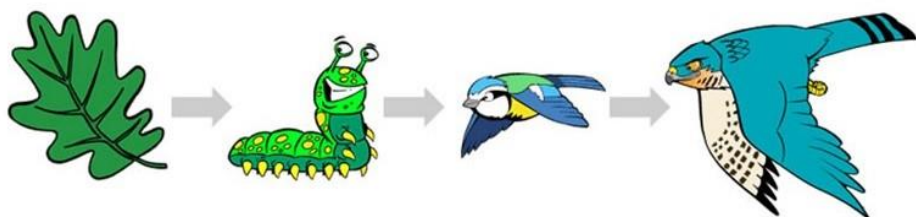

animals sleep for winter to save energy

### Food Chains

grass, cow, human  
plant, insect, bird.

### What do animals eat?

plants and other animals

### Hedgehogs

Live in woodland, hedgerows and gardens.

Eats insects

Sir David Attenborough  
Natural Historian
