## Maths Long Term Plan

Year 1
Daily fluency:

| Recognise and use language relating to dates, including days of the week, weeks, months and years |
| :--- |
| sequence events in chronological order using language [for example, before and after, next, first, today, yesterday, <br> tomorrow, morning, afternoon and evening] |
| Count forwards and backwards from a given number to another given number up to and across 100. |
| Count in equal steps of $2 s, 5 s$ and 10s from different multiples, including varied practice through increasingly complex <br> questions, supported by arrays and number patterns, including odd and even numbers. |

| Week | Lesson Objectives |
| :---: | :---: |
| 1 | Count accurately up to 30 objects <br> Identify and represent numbers to 30 using pictures and objects. |
| 2 | Read numbers $0-20$ in words and write using numerals Read <br> numbers $0-20$ in numerals and write in words |
| 3 | Recognise and create repeating patterns with objects and with <br> shapes. |
| 4 | Write subtraction problems by taking away, using - and $=$ <br> Recognise and name rectangles squares <br> Recognise and name circles <br> Recognise and name triangles |
| 5 | In different orientations and sizes and including in everyday <br> objects. |

| 6 | Recognise and name cuboids Recognise and name cubes Recognise and name pyramids <br> Recognise and name spheres <br> In different orientations and sizes and including in everyday objects. |
| :---: | :---: |
| 7 | compare, describe and solve practical problems, including recording, for: <br> lengths and heights [for example, long/short, longer/shorter, tall/short, double/half] using non-standard units, $m$ and cm . Recording should include $1^{\text {st }}, 2^{\text {nd }}, 3^{\text {rd }}$. |
| 8 | Compare, describe and solve practical problems, including recording, for: mass/weight [for example, heavy/light, heavier than, lighter than] using non-standard units g and kg . <br> Recording should include $1^{\text {st }}, 2^{\text {nd }}, 3^{\text {rd }}$. |
| 9 | Compare, describe and solve practical problems, including recording, for: <br> capacity and volume [for example, full/empty, more than, less than, half, <br> half full, quarter] using non-standard units I and ml . Recording should include $1^{\text {st, }}, 2^{\text {nd }}, 3^{\text {rd }}$. |
| 10 | Recognise and know the value of different denominations of coins and notes |
| 11 | Pupils use the language of position, direction and motion, including: left and right, top, middle and bottom, on top of, in front of, above, between, around, near, close and far, up and down, forwards and backwards, inside and outside. |
| 12 | Use mathematical language to describe a turn, including whole, half, quarter and three-quarter turns. |

| 13 | Compare, describe and solve practical problems, including recording, for: <br> time [for example, quicker, slower, earlier, later] using hours, minutes and seconds. <br> Recording should include $1^{\text {st }}, 2^{\text {nd }}, 3^{\text {rd }}$. |
| :---: | :---: |
| 14 | Identify and represent numbers to 100 supported by pictures and objects. <br> Count and compare numbers to 100 to find the most, supported by objects and pictorial representations |
| 15 | Count and compare numbers to 100 to find the least, supported by objects and pictorial representations. <br> Count and compare numbers to 100 using the language that one number is 'more than' another. |
| 16 | Count and compare numbers to 100 using the language that one number is 'less than' or 'fewer'. <br> Count to find two groups of objects of pictures that are 'equal to' each other using numbers up to 100 . |
| 17 | Represent numbers 0-100 on a number line. <br> Compare numbers to 100 on a number line to find the most. |
| 18 | Compare numbers to 100 on a number line to find the least. Compare numbers to 100 on a number line using the language that one number is 'more than' another. |

$\left.\begin{array}{|c|l|}\hline 19 & \begin{array}{l}\text { Compare numbers to } 100 \text { on a number line using the language that } \\ \text { one number is 'less than' or 'fewer'. } \\ \text { Count and find } 1 \text { more than a number up to } 100 \text { supported by } \\ \text { objects and pictorial representations. }\end{array} \\ \hline 20 & \begin{array}{l}\text { Count and find } 1 \text { more than a number up to } 100 \text { on a number line. } \\ \text { Count and find } 1 \text { less than a number up to } 100 \text { supported by } \\ \text { objects and pictorial representations. }\end{array} \\ \hline 21 & \begin{array}{l}\text { Count and find } 1 \text { less than a number up to } 100 \text { on a number line. } \\ \text { Write addition problems by combining two sets using + and }=\end{array} \\ \hline 22 & \begin{array}{l}\text { Add } 1 \text { to single digit numbers } \\ \text { Subtract } 1 \text { from single digit numbers }\end{array} \\ \hline 23 & \begin{array}{l}\text { Add two single digit numbers within } 10 \\ \text { Subtract a single digit number from a single digit number }\end{array} \\ \hline 24 & \begin{array}{l}\text { Add two single digit numbers bridging } 10 \\ \text { Subtract a single digit number from a } 2 \text { digit number less than } 20 \\ \text { bridging } 10\end{array} \\ \hline 25 & \begin{array}{l}\text { Find and represent all addition and subtraction number facts of } 5 \\ \text { Find and represent all addition and subtraction number facts of } 6\end{array} \\ \hline \text { Find and represent all addition and subtraction number facts of } 7 \\ \text { Find and represent all addition and subtraction number facts of } 8 \\ \text { Find and represent all addition and subtraction number facts of } 9\end{array}\right\}$

| 26 | Find and represent all addition and subtraction number facts of 10 <br> Find and represent all addition and subtraction number facts of 11 <br> Find and represent all addition and subtraction number facts of 12 <br> Find and represent all addition and subtraction number facts of 13 <br> Find and represent all addition and subtraction number facts of 14 |
| :---: | :--- |
| 27 | Find and represent all addition and subtraction number facts of 15 <br> Find and represent all addition and subtraction number facts of 16 <br> Find and represent all addition and subtraction number facts of 17 <br> Find and represent all addition and subtraction number facts of 18 <br> Find and represent all addition and subtraction number facts of 19 |
| 28 | Find and represent all addition and subtraction number facts of 20 <br> Add ten and a single digit number <br> Subtract 10 from a two digit number up to 20 |
| 29 | Add 9 and a single digit number <br> Find the difference between two numbers |
| 30 | Solve addition missing digit number problems <br> Solve subtraction missing digit number problems |
| 31 | Recognise a half as one of two equal parts of an object or shape <br> Find $1 / 2$ of objects <br> Find $1 / 2$ of an amount |
| 32 | Recognise a quarter as one of four equal parts of an object or <br> shape <br> Find $1 / 4$ of objects |
| 20 |  |

|  | Find 1/4 of an amount |
| :---: | :--- |
| 33 | Solve one-step problems involving multiplication using equal <br> groups supported by objects and pictorial representations (2s, 5s <br> and 10s) <br> Solve one-step problems involving multiplication using repeated <br> addition supported by objects and pictorial representations. (2s, 5s <br> and 10s) <br> Solve one-step problems involving multiplication using arrays (2s, <br> 5s and 10s) |
| 34 | Solve one-step problems involving division (grouping) supported by <br> objects and pictorial representations. (2s, 5s and 10s) <br> Solve one-step problems involving division (sharing) supported by <br> objects and pictorial representations. (2s, 5s and 10s) |
| 35 | Tell the time to the hour <br> Draw hands on a clock face to show time to the hour |
| 36 | Tell the time to half past the hour <br> Draw hands on a clock face to show time to half past the hour |
